

Backing up your POS Data should be done on a weekly basis. If your CPU were to crash, you will have most of your data. You can also use your data backup to restore to a training system, for your students to practice sales. See the Restore Training POS PDF.

To Back up your Data:

1

1. Place your USB Stick in your CPU (We provided you with one)

To Back up your Data:

- 1. Exit out of all POS Systems.
- 2. On the Server (POS 1) Desktop, Double click the Backup Icon.
